Empire Completes 100% Acquisition of Yuinmery Project On the Back of Significant Drilling Results

Empire Resources Ltd (ASX "ERL") as the Perth-based explorer completes its second such acquisition in as many weeks for a consideration of \$150,000 to private investor, Meekal Pty Ltd, to purchase up the remaining 10% that it did not own of the Yuinmery copper-gold project, 85 kilometres southwest of Sandstone in Western Australia.

Empire commenced 2008 with a 75% stake in Yuinmery but moved quickly to a 90% interest under a growth strategy which earlier this month also saw the Company fully acquire 100% ownership of the high grade Penny's Find gold project near Kalgoorlie.

The latest acquisition covers all five tenements within Yuinmery project and over which Empire currently has a resource drilling program underway.

This campaign of 2,500 metres of Reverse Circulation drilling is centred primarily around the highly promising Just Desserts prospect.

Recent drilling included assay results of 6m@ 7.42% Cu and 3.01g/tAu from 85 metres depth.

The Company's objective is to achieve sufficient drill data to enable the estimate of an initial JORC-standard resource for Yuinmery.
